C O R P O R A T I O N

During this challenging time, we frequently wash our hands which can cause dry, cracked skin increasing the risk of contracting infections and also leads to conditions such as eczema. Our cream tackles both dry skin and bacteria.

- Active Ingredient Benzethonium Chloride- has widespread action against various bacteria, viruses, and fungi.
- Non-greasy antibacterial cream formulated to moisturize and soothe irritated skin.
- pH balanced for sensitive skin.
- Enriched with Aloe Vera, Vitamins A, D & E & Allantoin for smooth, healthy-looking skin.

## Ca-Rezz® NoRisc® Antibacterial Cream
